

BIOSTAR®

TECHNICAL DATA SHEET

BIOSTAR Algesan®

Liquid for the decomposition of filamentous algae

BIOSTAR Algesan® is a broad-spectrum liquid algaecide against algae.

Purpose:

BIOSTAR Algesan® combats algae quickly and effectively and inhibits the formation of new algae when used regularly.

Advantages:

- Control of all types of algae
- Inhibits the formation of new algae
- Easy to dose

Mode of action:

Becomes embedded in the cell membrane of the alga and leads to the death of the alga.

Recommended dosage:

~ 30-40 ml/m³ water volume | Range: 1 l for 33,000 l

~ 3 ml/m³ water volume for fish stocking
Pour the calculated amount into a suitable vessel with pond water and distribute evenly on the water surface or add via a dosing station. Use BIOSTAR Algesan® only for the above purpose.

Storage:

Keep away from food, drink and animal feeding stuffs. Protect from frost. Store in a cool, dry place in tightly closed containers. Protect from heat and direct sunlight. Keep locked up and out of reach of children. The product may be stored for at least 24 months under these conditions.

Biocidal products:

Use with care. Always read label and product information before use.
BAUA No. N-102676
