

BIOSTAR®

TECHNICAL DATA SHEET

BIOSTAR® Teichrandreiniger

Gel for cleaning lime deposits on the edge of the pond

BIOSTAR® Teichrandreiniger is a gel cleaning agent against lime deposits on the pond liner.

Purpose:

Elimination of lime scale edges at the edge of the pond - often caused by hard tap water or with increased evaporation in summer.

Advantages:

- Effective limescale removal
- Practical, product-saving consistency
- Fast action
- Even stubborn older incrustations can be dissolved

Mode of action:

dissolves mineral deposits.

Dosage recommendation:

Pur use. Before use, material compatibility should be tested at a suitable location. BIOSTAR® Pond Edge Cleaner should be applied sparingly to the area to be cleaned to minimize the impact on the pond system. We recommend the use of a cleaning pad or sponge for application. BIOSTAR® Pond Edge Cleaner should be left to work for a few minutes and then removed again with the cleaning pad.

Storage:

Keep away from food, drink and animal feeding stuffs. Protect from frost. Store in a cool, dry place in tightly closed containers. Protect from heat and direct sunlight. The product has a shelf life of at least up to 24 months if stored under these conditions.
