

# BIOSTAR®

## TECHNICAL DATA SHEET

### BIOSTAR Algesan® G

Granules for the decomposition of filamentous algae

**BIOSTAR Algesan® G** is a powdered combination algaecide against filamentous algae and for aeration of the pond.

#### Purpose:

BIOSTAR Algesan® G combats filamentous algae quickly and effectively and, by releasing active oxygen, supports the aeration of the pond to promote the breakdown of disturbing substances.

#### Advantages:

- Fast control of filamentous algae
- Additional aeration with active oxygen
- Improved breakdown of disturbing substances
- Easy to dose

#### Mode of action:

Oxygen oxidizes and destroys the algae structure.

#### Dosage recommendation:

~ 30 g/m<sup>3</sup> water volume | Range: 1 kg for 33,000 l

Sprinkle calculated amount directly on the affected areas. In case of multiple applications, at least 72-96 hours should elapse in between. Use BIOSTAR Algesan® G only for the above purpose.

#### Storage:

Store in a cool, dry place in tightly closed containers. Store in a dry place protected from the weather. Store away from combustible materials. Protect from heat and direct sunlight. Store under lock and key and out of reach of children. The product may be stored for at least 24 months under these conditions.

#### Biocidal products:

Use with caution. Always read label and product information before use. BAUA No. N-103197
